## PREMIUM SYSTEM

### **Durable, environmentally friendly, UV and corrosion resistant**

SFS intec's VistaCoat Premium System is a high-performance finish that is durable, provides exceptional UV and corrosion resistance and is environmentally friendly. This system is designed to provide the highest quality installed product.

The VistaCoat finish is specifically formulated to endure rigorous fastener applications. Utilizing state of the art pigmentation, VistaCoat provides excellent gloss and color retention. The coating is applied using the newest technology for added consistency and protection.

#### **VistaCoat Premium System benefits:**

- Superior durability
- Brilliant gloss and color retention
- Innovative pigmentation process
- Enhanced color consistency
- Resistant to effects of UV and corrosive environments
- Isocyanate free
- Environmentally friendly
